

Link Building Project

An Email Marketing company was seeking to improve its rankings for a total of 48 Spanish keywords and 24 Portuguese keywords.

What Did We Do?

To achieve the client's objectives, we devised a four-step plan:

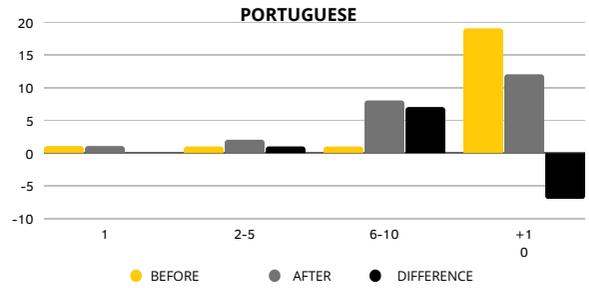

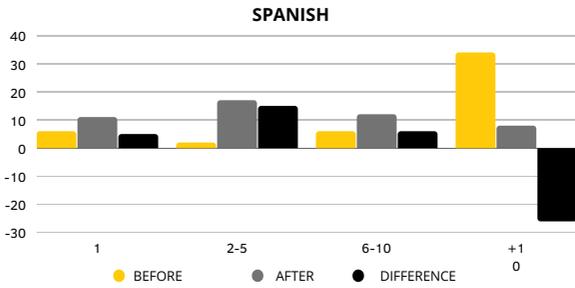

1. **Analysis:** Reviewing the content that the client aimed to rank.
2. **Prospecting:** Researching websites related to the client's content with an audience that shared similar interests.
3. **Content Creation:** Create content to promote the client's brand and mission.
4. **Publishing:** Creating and publishing relevant content with a backlink to the client's website.

What Were the Results?

Over the course of 4 months of work, combining the results of the target keywords, we **improved rankings for 62% of the target keywords.**

11% of the keywords reached the number 1 position
36% of the keywords ranked between positions 2 and 5
38% of the keywords ranked between positions 6 and 10
